

# Adding Drilling Parameters record

1. To create a **Drilling Parameters** record, first select a **Well** record and a **Day** record from the **Well Operations** and **Day** selectors respectively.
2. Mouse-over the **DrillNet** tab and select **Drilling Parameters** from the drop down menu displayed. This will load the **Drilling Parameters Data** page.

1. Select a **BHA Run** record from the dropdown list, as this is a mandatory field. Fill-out any other information. If there is something that you do not know right now, it can always be entered at a later time.
2. To save, click the **Confirm** button.
