GeoNet Quickstart Adding Litholog record

Note:

Lithology Options consists of Litholog and Lithology.

- 1. To create a new *Litholog* record, select a *Well* record and a *Day* record from the *Well Operations* and *Day* selectors respectively.
- Mouse-over the *GeoNet* tab and *Lithology Options*, select the *Litholog* from the drop down menu.

This will load the *Litholog Data*, showing the existing record associated with the selected *Well* and *Day* records.
