GeoNet Quickstart
Adding Lithology record

Note:

Lithology Options consists of **Litholog** and **Lithology.**

1. To create a new **Lithology** record, select a **Well** record and a **Day** record from the **Well Operations** and **Day** selectors respectively.

2. Mouse-over the **GeoNet** tab and **Lithology Options,** select the **Lithology** from the drop down menu.

   This will load the **Lithology Data**, showing the existing record associated with the selected **Well** and **Day** records.
