

Adding Production String Fish record

1. To create a **Production String Fish** record, first select a **Well** record and a **Day** record from the **Well Operations** and **Day** selectors respectively.
2. Next, mouse-over the **ProNet** menu tab and select **Production String Fish** from the drop down menu.
3. This will load the **Production String Fish** page, showing the existing record associated with the selected **Well** and **Day** records.
