

# Adding Production String Packer record

1. To add a **Production String Packer** record, first select a **Well** record and a **Day** record from the **Well Operations** and **Day** selectors respectively.
2. Next, mouse-over the **ProNet** menu tab and select **Production String Packer** from the drop down menu.
3. This will load the **Production String Packer** page, showing the existing record associated with the selected **Well** and **Day** records.

4. Create new **Packer** record by clicking the **Add New** button.

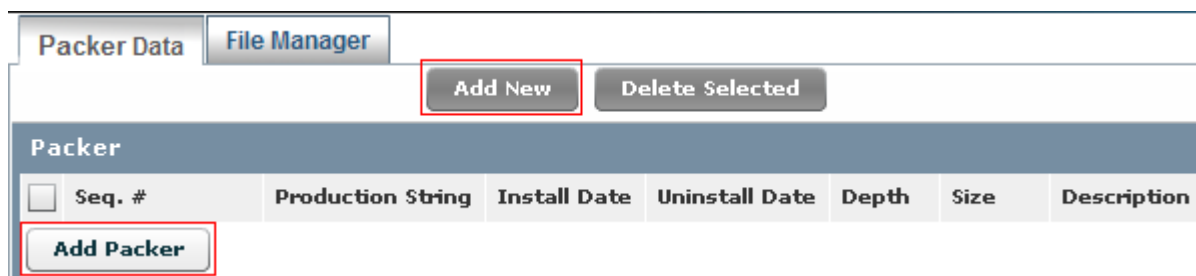

Figure 1.1 Add new Production String Packer

5. Enter the **relevant data**.

The screenshot shows a software interface for entering packer data. At the top, there are two tabs: 'Packer Data' (active) and 'File Manager'. Below the tabs are two buttons: 'Confirm' (green) and 'Cancel' (red). The main area is a form titled 'Packer' with a table structure. The table has four columns: 'Seq. #', 'Production String', 'Install Date', and 'Uninstall Date'. Each column has a corresponding input field. The 'Seq. #' field has a 'Cancel' button. The 'Production String' field has a dropdown arrow. The 'Install Date' and 'Uninstall Date' fields have calendar icons and a 'C' button. At the bottom of the form is an 'Add Packer' button.

	Seq. #	Production String	Install Date	Uninstall Date
<input type="checkbox"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Cancel				
Add Packer
